

TRANSFER ARTICULATION AGREEMENT

Chatfield
College

College of Business Administration
University of Cincinnati

INTRODUCTION:

This agreement details the transferability of courses from the Associate of Arts at Chatfield College to the Bachelors of Business Administration degree program at the College of Business Administration.

PROGRAM COVERED:

Students from Chatfield College completing the A.A. who are admitted to the College of Business Administration may pursue the BBA degree in the concentrations listed in the current College of Business Administration Bulletin. Chatfield College students who plan to opt for Information Systems as their Focus Concentration upon transferring to the College of Business Administration are not required to take a General Education Science Elective at the University of Cincinnati, and the available number of Free Elective hours will change from fifteen hours to ten hours. To replace these hours Information Systems majors will complete 22-IS 212 (Programming Foundations) and 22-IS-321 (Data Structures and File Design) or their Chatfield equivalents as outlined in the attached course equivalency table.

The A.A. program is not designed to articulate with the Bachelor of Science in Industrial Management. Students transferring into this program will have their credits assessed on an individual basis.

A course equivalency table is attached which details how courses from Chatfield College's Associate of Arts degree program will transfer to the College of Business Administration.

ADMISSION INTO THE COLLEGE OF BUSINESS ADMINISTRATION:

The College of Business Administration is a selective admissions college of the University of Cincinnati. Acceptance by the College of Business Administration is dependent on such factors as the number of spaces available and the number of and quality of the transfer applicants. Chatfield College will advise all potential transfer students that admission is highly competitive and that they should strive to exceed the minimum standard for consideration. Meeting the minimum standard does not guarantee acceptance into the College of Business Administration. Chatfield College and the College of Business Administration will strongly advise students that they should complete the Associate of Arts degree before transferring to the College of Business Administration.

The admissions standards for Chatfield College students who apply to transfer to the College of Business Administration are a cumulative grade point average of at least 2.50 from all colleges attended and successful completion (earned at least a D- grade, with an A.A. or C- without an A.A.) of College Algebra (Math 106) and Calculus in order to be considered for admission. Chatfield College students can earn credit for calculus through the Consortium, in which case the student will complete the calculus requirement by attending another college. Students can find out which class will satisfy the requirement by calling the transfer advisor at the College of Business Administration. The College of Business Administration will guarantee admission to Chatfield College students who complete the Associate of Arts degree in Pre-Business and who have a cumulative grade point average of at least 3.00 from all colleges attended.

A Chatfield College student who successfully transfers and matriculates in the College of Business Administration will be subject to the academic policies and curriculum as stated in the College of Business Administration Bulletin in effect at the time of matriculation.

GRANTING OF JUNIOR STATUS:

All courses successfully completed at Chatfield College will transfer to the College of Business Administration as detailed in the attached course equivalency table. Students who have completed the Associate of Arts degree and
