Online Application

Two Ways to Submit an Online Application

You can apply for admission to UC Clermont online. Please have a credit card ready for payment of the \$50 application fee.

You will need to create an account to begin the online application. Write down your user name and password, and keep them somewhere safe. You will need them for steps that occur later in the admission process.

If you are not ready to declare a major, we encourage you to select the "exploratory studies" option on the application.

Option One: Complete the UC Clermont College application through UC's Web Portal. In order to begin an application, you will be asked to create an application account, including your email address. Also, be aware that some email providers, like Yahoo, filter email from UC as junk or prevent it from being delivered at all. **Please be sure to add uc.edu to your email's whitelist to ensure you receive communications from UC.**

APPLY VIA THE UC WEB PORTAL

Option Two: Use the Common Application. This option is especially convenient if you have already established an account on The Common Application or plan to apply to multiple universities, since you'll only have to fill out the form once. **This option is for first-time applicants only. Transfer students must apply via the UC Web Portal in Option One.**
